Marazzi Marco- short Bio

Marco Marazzi is Deputy General Coordinator of Elettra - Sincrotrone Trieste S.C.p.A. and Head of the Logistics and Administration Group. He joined Elettra in 2009, bringing years of industry experience in the Research and Development and Industrial Development area.

Marco is also Director of Italian Partner Facility in CERIC-ERIC Consortium and consultant on the Industrial Projects for the Italian Ministry of Education and Research.

From 2004 to 2009 Marco worked as Head of the Industrial Development in Magneti Marelli, an automotive company and subsidiary of the Fiat Group; he was responsible for the development of new joint ventures and technological platforms, and establishing new operations worldwide. Marco's main achievements include the successful start-up of the new operation plant in India (New Delhi), which was completed in August 2009, and the successful industrialisation of Audi dashboards instruments. Prior to this, Marco worked as a senior research engineer in the R&D Department of Avanex Corporation (formerly part of Corning Corporate) in Milan, Italy, and was responsible for a team engaged in the development of new packaging technologies for optical components to be used in telecom applications.

Marco has a degree in physics and is the author of several patents.
