Summary of CV

This section describes briefly a summary of your career in science, academic and research; the main scientific and technological achievements and goals in your line of research in the medium -and long- term. It also includes other important aspects or peculiarities.

Joana Porcel-Carbonell, PhD on Neuropsychology, University of Barcelona; Clinical Psychologist. I have worked as a clinical neuropsychologist at the Association of Brain Injury and Brain Damage of Catalonia, providing support and counselling to families and brain injured patients (1996-2002), and at the Vall d'Hebron University Hospital in Barcelona, as a psychologist and researcher at the Multiple Sclerosis Unit (1997-2006). Since 2006 I have been working in research management. From 2006 to 2009 I worked in the private sector in pharmaceutical research, mainly in clinical trials design and implementation. In 2009, I joined the Centre for Research in Environmental Epidemiology (CREAL), which was integrated into the Barcelona Institute for Global Health (ISGlobal) in July 2016. At CREAL, I was the head of the Projects Office: managing pre-award (identifying funding opportunities and providing support to researchers to apply) and post-award (including reporting and auditing). I provided ethics support to researchers (reviewing submissions to the ethics committee and acting as a liaison between researchers and the committee). I was also involved in strategic planning and managing the scientific agenda. After the merger with ISGlobal, I coordinate the Projects Unit, which includes the Grants Office and the Coordination and Research Management Office. I am mainly involved in the latter, which deals with strategic planning management, scientific and institutional policy development and implementation, and scientific agenda management. I was appointed as the ISGlobal Data Protection Officer in 2018. I provide support to researchers on ethical issues and good scientific practice. I am a member of the ISGlobal Good Scientific Practices Committee, the PRBB Working Group on GSP and co-chair of the Ethics and Research Integrity Officers Network - ERION - of the European Association of Research Managers and Administrators. I act as Ethics Advisor in European Projects and as an Ethics Expert at the European Commission for the implementation, evaluation and monitoring of H2020 / Horizon Europe proposals and projects (including ERC, MSCA, HADEA, IHI, EISMEA).
